DETAILED ACTION

1. In view of amendment filed September 9, 2005, new claims 19-25 have been added. Claims 1-4, 6, 11-14, 16-25 are pending.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-4, 6, 17, 19-21, 22-24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The recitations of "comonomer" of claim 1 (line 2), claim 22 (line 1), and claim 23 (line 1) are not described in the original specification.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 19-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 19 (line 1) recites the limitation "monomer". There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-4, 6, 11-14, 16-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Booth (US 2,059,930) for the reasons adequately set forth from paragraph 4 of non-final office action of June 9, 2005.

Applicant's arguments filed September 9, 2005 have been fully considered but they are not persuasive. Regarding applicants' argument that the dielectric constant of Booth is not in the range of 1.7 to 2.7 as required by claim 11, because the olive oil in Booth is not being used to improve dielectric constant. However, applicants must

Art Unit: 1713

recognize that applicants' specification (page 8, line 6-8) has indicated that feather by itself is a low dielectric constant material, containing lots of air inside. Such disclosure clearly indicate that the claimed dielectric constant is inherently possessed in the feathers or mat of Booth.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1713

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
